

EXTERNAL VACANCY ANNOUNCEMENT

ESI GRADUATE SKILLS DEVELOPMENT PROGRAMME

Uganda Electricity Transmission Company Limited runs a three (3) year Graduate Skills department program facilitated by ERA.

The Electricity Supply Industry (ESI) is a knowledge intensive industry that requires highly skilled personnel who can only be nurtured through industrial training of fresh graduates as well as refresher training of personnel. This programme ensures effective mentorship and equipping fresh graduates with a platform to begin and build a successful career in the ESI.

Are you a talented and ambitious graduate looking to develop your career prospects? This is an amazing opportunity to undertake an exciting opportunity in the Electricity Supply Industry!!

We are looking for recent graduates who:

- Graduated within the last two (2 years)
- Hold a bachelor's degree in statistics, Finance, Accounting, Economics, BCom/BBA in Finance or Accounting or any related degree from a recognized.
- Demonstrate strong academic and professional potential

The training offers the successful candidate an opportunity to:

- Access structured training and professional development opportunities.
- Gain practical work experience in the electricity transmission environment
- A mentor to guide you on your career path.
- Rotate across different departments and gain organizational exposure
- Build a strong foundation for long term career growth and professional development.

If you believe you are the one we are looking for, please apply through the link <https://tinyurl.com/ar8r7nbz> and fill out the application form clearly detailing your suitability for the position in terms of required qualifications and experience.

Application deadline: **Tuesday 13th October 2026**
